Philosophical Tools in Design Research From Empirical Turn to Practical Turn

COLLABORATION BETWEEN DESIGN RESEARCH AND PHILOSOPHY OF TECHNOLOGY

this track brings together papers which are in one way or another about 'philosophical tools in design research'. All research projects apply insights from philosophy of technology to real world problems and design solutions; or the other way around, they use insights from philosophy of technology to reflect on designs that were actually made.

Philosophical Tools in Design Research Two Sessions

11:15 – 12:45 and 14:00 – 15:30

The order of the papers is from the more practical to the more reflective papers, with a more general perspective in the first and the last paper.
